

VERIFICA SULLE FRAZIONI

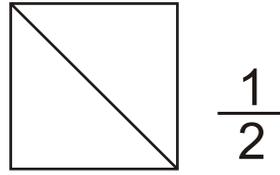

1) Colora le parti dei disegni corrispondenti alle frazioni:

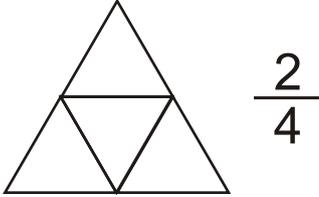

$\frac{3}{8}$

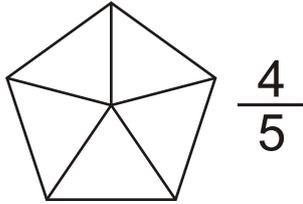

$\frac{2}{3}$

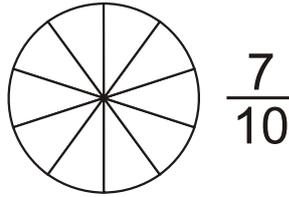

$\frac{1}{2}$

$\frac{2}{4}$

$\frac{4}{5}$

$\frac{7}{10}$

2) Leggi e scrivi le frazioni in cifre:

tre ottavi = _____

quattro sestimi = _____

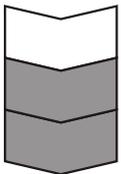

due quinti = _____

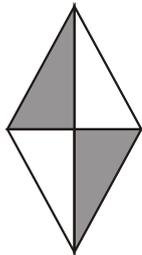

sei noni = _____

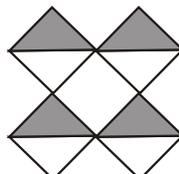

due settimi = _____

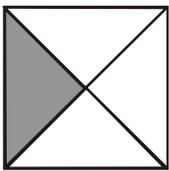

un quarto = _____

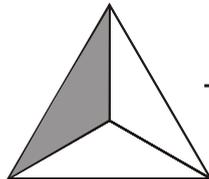

3) Scrivi le frazioni corrispondenti alle parti colorate:

4) Leggi e scrivi le frazioni in lettere:

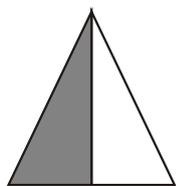

$\frac{3}{4} = \dots\dots\dots$

$\frac{8}{10} = \dots\dots\dots$

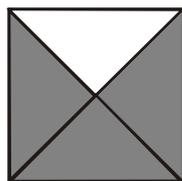

$\frac{4}{6} = \dots\dots\dots$

$\frac{5}{11} = \dots\dots\dots$

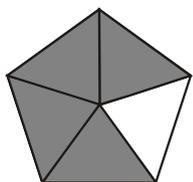

5) Collega con una freccia i disegni alle frazioni corrispondenti:

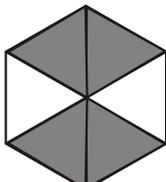

$$\frac{4}{5}$$

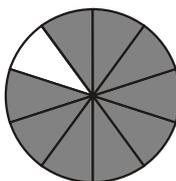

$$\frac{2}{3}$$

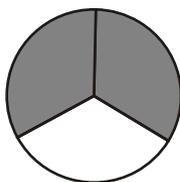

$$\frac{9}{10}$$

$$\frac{3}{4}$$

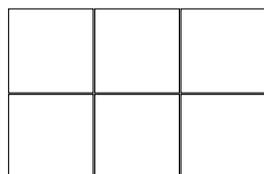

$$\frac{1}{2}$$

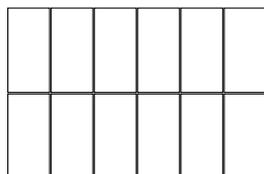

$$\frac{4}{6}$$

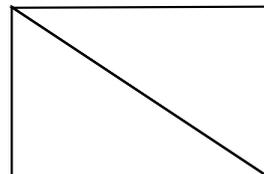

6) In ogni figura colora l'unità frazionaria e scrivi la frazione corrispondente:

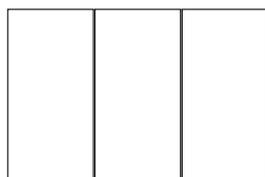

...

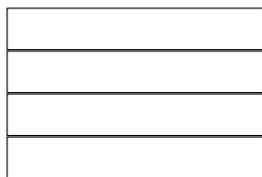

...

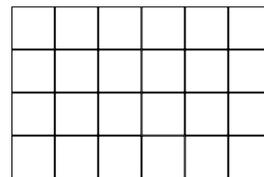

...

...

...

...

7) In ogni serie orizzontale circonda la frazione maggiore (più grande):

$$\frac{5}{12} \quad \frac{7}{12} \quad \frac{3}{12} \quad \frac{9}{12}$$

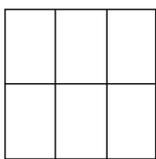

$$\frac{6}{20} \quad \frac{10}{20} \quad \frac{1}{20} \quad \frac{8}{20}$$

8) Confronta le seguenti frazioni e riscrivile in ordine decrescente:
(dal più piccolo al più grande)

$$\frac{1}{6} \quad \frac{1}{2} \quad \frac{1}{4} \quad \frac{1}{10} \quad \frac{1}{50} \quad \frac{1}{100} \quad \frac{1}{3} \quad \frac{1}{5}$$

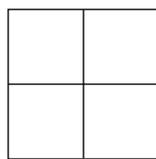

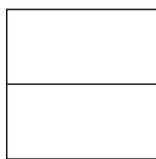

9) Colora le frazioni indicate; confronta le frazioni di ciascuna coppia e scrivi nel quadrato il simbolo <, >:

$\frac{1}{6}$

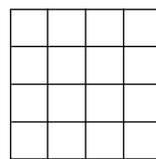

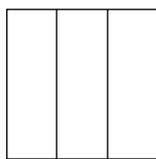

$\frac{1}{2}$

$\frac{2}{4}$

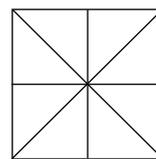

$\frac{2}{3}$

$\frac{4}{16}$

$\frac{4}{8}$

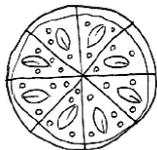

10) Colora le frazioni delle "pizze" indicate; confronta le frazioni di ciascuna coppia e scrivi nel quadrato il simbolo <, >:

$\frac{6}{8}$

$\frac{5}{8}$

$\frac{1}{4}$

$\frac{2}{4}$

11) Trova la frazione complementare come nell'esempio:

$$\frac{2}{5} + \frac{3}{5} = \frac{5}{5} = 1$$

$$\frac{4}{9} + \underline{\hspace{2cm}}$$

$$\frac{8}{12} + \underline{\hspace{2cm}}$$

$$\frac{10}{16} + \underline{\hspace{2cm}}$$

$$\frac{7}{25} + \underline{\hspace{2cm}}$$

$$\frac{3}{7} + \underline{\hspace{2cm}}$$

$$\frac{12}{20} + \underline{\hspace{2cm}}$$

$$\frac{15}{31} + \underline{\hspace{2cm}}$$
